

CITIZENS' HOSE COMPANY NO. 1.
109 S. BALTIMORE ST.
P.O. BOX 425
DILLSBURG, PA 17019
(717) 432-3281
Assistant Chief Tony Baker
May 30, 2007

Citizens' Hose Company No. 1. is looking for community support to help fund a Fire Prevention Smoke House Simulator. This state of the art training house is not only a great visual aide but a walk through facility demonstrating what to do in a real life emergency.

What is a Fire Prevention Smoke House Simulator?

This is a 30'house that is mobile on a trailer that is able to be transported around to better enable us to educate the public (our children) on what to do in an emergency.

What type of emergencies?

House fire
Calling 911 and what do after the call
Home fire drills
Evacuation plans
Fire prevention
Smoke detector placement and maintenance
Electrical hazards
Kitchen appliance hazards
Demonstrate making your home a safe home

Citizens' Hose Fire Company is constantly striving to find new and improved ways to better educate the community. Talking to the children, handing out coloring books and letting them tour the fire trucks just is not enough to really teach the young to stay alive. Letting them live a true simulated emergency will stay with them in the time of need. Get out and stay out is just not words now, it's an action. Your contribution towards the purchase of this simulator will help us save lives.
