

2010 Budget Information:

The 2010 budget was able to hold the line on taxes in spite of an anticipated decrease in revenues and increase in costs. Building permits and police revenue have decreased and with this economy we continue to budget conservatively. A change in the deductible for health care insurance has limited the increase to 5.5%. However the increase has been offset by new insurance policies that have allowed us to budget a 3% decrease in the cost of employee benefits. The budgeted expenditures are .05% higher than in 2009.
