

Do you have problems with your well? Are you new to well ownership? Do you have a lively interest in protecting the quality of your drinking water? This workshop is for you!

Designed to help well owners understand and protect their private water systems, Tom McCarty, Penn State Cooperative Extension Water Resource Specialist, and Diane Oleson, Penn State Cooperative Extension Water Resources Educator, will present information on understanding water systems, water testing, interpretation of results, and water treatment. Learn about well construction and well protection. Come and grow your management skills with us.

Selected water analyses will be available through a certified laboratory at a reduced rate to workshop participants. You must pay the laboratory at the workshop when bottles are picked up. Samples must be delivered to the Extension office by noon on April 14<sup>th</sup> to receive the workshop rate.
