

Rainwater Conservation Barrel

Harvest rain water, help a stream!

For healthier gardens, use collected rainwater to nourish your plants.

York County Conservation District

The York County Conservation District is committed to improving and protecting our environment and wise use of our County's natural resources. 100% of all rain barrel profits are dedicated to the District's Headwaters Environmental Legacy Program (HELP-Streams) which assists landowners with restoring and protecting small headwater streams.

Constructed of High Density Polyethylene (HDPE) the 60 and 80 gallon rain barrels work under any size downspouts. A perforated entry screen cover allows quick rain entry and prevents insects from entering the barrel. The solid brass spigot attaches easily to your garden or soaker hoses. These premium rain barrels have two overflow ports which can redirect excess water away from your home.

- 60 Gallon Rain Barrel \$125
- 80 Gallon Rain Barrel \$145
(Tax included in price)

Made by RainBarrelUSA

Rain Barrels must be picked up at our office unless prior arrangements have been made.
