

Pennsylvania & Carroll Township Require Recycling

Pennsylvania's Act 101 of 1988 requires all commercial establishments to recycle.

Who must comply?

All offices, restaurants, grocery stores, retail shops, service shops, schools, churches, civic groups and any other establishments that are not residences must comply.

How does an establishment comply?

1. Contact a Garbage and Recycling Hauler of your choice for your recycling needs.
2. Each calendar year, you are required to report how much you recycled and the items you recycled. A report form can be found online at www.carrolltownship.com. It must be sent to Carroll Township by February 1st of each calendar year:

Carroll Township
555 Chestnut Grove Road
Dillsburg, PA 17019

Fines & Penalties

All businesses and establishments that generate recyclable materials are required to recycle. Fines and penalties can reach \$1,000 per day.

Questions?

If you are unsure about what to do, please contact:

Get Started with this Simple Plan

Evaluate your waste.

Determine what recyclable items you use and the quantity of those items. You may wish to designate an employee as Recycling Coordinator.

Contact your waste hauler.

Your waste hauler will be happy to assist you in setting up for recycling.

Get everyone involved.

An effective program works only when everyone is enthusiastically involved in the program. Be sure to explain the recycling system to all employees, and post clear directions, posters and container labels.

Keep it simple.

Recycling should be kept simple. Clearly label containers and place them where they can be easily accessed by everyone.

Take pride in doing it right.

Be sure that materials end up in the proper recycling containers. Ask your waste hauler which materials can be mixed and which should be separated.

Be environmentally aware.

The bulk of commercial and retail waste is corrugated boxes, jars, bottles, cans and office paper. Pennsylvania law requires those materials to be recycled!

Take required recycling a step further.

Look for ways to reduce the amount of trash and generate more recycling. Reduce your use of disposables and consider recycling non-required items. Consider buying products that are made from recycled materials.

Help your community.

Recycling puts money back into the community. When recycling increases, grant money received by Carroll Township also increases, benefitting the entire community!

These Items MUST be Recycled:

- Newspaper
- Plastic jugs/bottles (#1, 2 & -5)
- Corrugated Cardboard
- Glass jars/bottles
- Aluminum cans
- Bi-metal cans
- Cartons
- Leaf Waste

**Recycling is good for
the entire community
and it's the Law!**

Your Business can Benefit from Recycling with the Examples Below

Save money and increase revenue!

Recycle scrap metal from a construction job site at a scrap yard and get paid for it.

Save energy!

Use your waste heat from your AC unit to heat water, instead of the gas or electricity you now use, by putting a waste heat recovery unit between the A/C and the water heater.

Reduce Pollution!

Save landfill space by leasing office machines from companies who take responsibility for handling the equipment at the end of its life.

Control Cost!

Recycling reduces the amount of garbage you put in your dumpster. You may be able to decrease the size of your dumpster or your number of garbage pickups. Recycling costs much less than throwing materials away.

Save Money on Future Cost!

Reducing the demand for precious natural resources will keep future price increases in check.

Build Good Customer Relations!

By recycling your waste, you showcase to your customers that you care about your social and environmental impact.
